PATTERN NOTES

Side away is right side.

Begin all pieces: HEM. Cast on with waste yarn. Knit several rows. Hang weights. Ravel cord, knit 1 row, ending with carriage at right. RC000. MC, 'e' wrap. T8, K1R. T7, K1R. T6, K1R. T5, K1R. T4, K4R. T8, K1R. Set row counter to RC000.

Outlined 4 to 3 full fashion decrease: put 4th stitch on 3rd needle. With 3 prong tool, move the three end sts in one space. This puts the decrease on 3rd stitch.

Increase: pick up two end stitches, move out one space and hang purl bump from inside stitch to fill in empty needle.

Cables and tuck rib: Cables made over 4 sts, with tuck rib formed manually after. Mark stitches for tuck rib by hanging yarn marks on needles on the row indicated. Make cable on 4th and then every 6th row. Using two prong tool in each hand, pick up 2 stitches on each. Put right hand down to left first. Bring cabled needles out past latches before knitting row. To make tuck rib, at top of piece, before taking off on WY, poke latch tool into stitch with yarn mark so you know how far to drop the stitch, drop stitch from needle, ladder down to yarn mark. Reform by going under two bars, catch second one and draw down and through to make a knit stitch. Continue to top and hang new stitch on needle.

Yarn markers: Before beginning, cut approx 26 yarn markers from waste yarn. Hang on edge sts of body, every 36 rows to mark 10 cm. This will make blocking and seaming much more even. To hang the markers, bring needle out and loop the strand of yarn over. Knit the row as usual. These markers will pull out without dropping the stitch or making a hole. Hang yarn marks for tuck ribs on needles indicated in pattern.

Shortrow: Set to hold. Always loop yarn under last needle in hold at carriage side. Put n's in HP on side opposite carriage on every other row. For underarm, to cast off sts in hold, return sts to upper working position on side opposite carriage. Knit row. The needles that were in UWP will be knit back to work. Take yarn out of feeder and manually knit loose sts on the needles that were in hold and then chain cast off those sts. Re-thread and knit the row, repeating the action on the other side. This will give a nice smooth line to the edge and eliminate the stair-steps caused by casting off at the beginning of each row. Quicker too!

Manually knit loose row. Chain cast off.

Seaming the selvedge edges on the knitting machine, e.g. side seams, underarm seams.

Hold piece to be seamed up to needle bed and stretch slightly to determine number of needles required. Right side facing you, hang side of garment, picking up whole outside sts. Pick up each end first. Hang the other matching piece wrong side facing you, matching yarn marks. Bring needles out, pushing fabric back behind latches. Close latches. T2, MC, K1R. This is the joining row and makes a nice tight seam. (The secret is closing the latches. If you forget to do this, things will likely jam part way into the row.)

Bring n's out, close latches. T10+ (loosest), K1R. Chain cast off. Join remaining part of sleeve cap/underarm seams. Join sleeve and side seams, leaving bottom edge open about 25 cm/10 inches if desired.

Darn in ends. Wash and dry as swatch.
